

**MODEL 1152
TRADE-IN OFFER**

Upgrade Your 1152 Now Stay Certified, Stay Covered

Limited-Time Trade-In Offer Includes

- On-site self-verification & traceability with a CU Box valued at \$698 USD – free for a limited time with trade-in
- ATEX Approved – The only ASTM D1655 & D7566 approved conductivity meter in the world
- Full 1-year factory warranty

Same Trusted Measurement, More of Everything Else.

The upgraded Model 1152 delivers the same proven performance (precision & accuracy) and ASTM compliance you've always relied on, now sealed against liquid intrusion, built tougher, and backed by the only full intrinsic safety certification in its class including ATEX, UL, CSA, ULC, and LCIE (Europe/UK). Upgrading means no disruption to your compliance program and no relearning a new instrument.

For a limited time, every trade-in upgrade includes a complimentary CU Reference Box that allows you to verify the electrical performance of your meter and electronics right at your facility, with no shipping, waiting, or interruptions to your testing schedule. This enables you to perform periodic verification checks, support audit documentation, and maintain confidence in your instrument's day-to-day performance between factory calibrations.

A Note on Your Current Model

The original Model 1152 has reached end of life and can no longer be serviced or calibrated. Upgrading now keeps your compliance program intact with no gap in certification or traceability.

The new Model 1152 advantage:

- ✓ **Sealed Against Liquid Ingress**
No more sticking switches.
- ✓ **Proven Circuitry, Same ASTM Compliance**
Built to last longer.
- ✓ **The Only Meter with Full Intrinsic Safety Certification for Hazardous Environments**
ATEX, UL, CSA, ULC, and LCIE (Europe/UK)

Complimentary Conductivity Unit Reference Box

for on-the-spot verification and audit (no need to ship unit to service depot or factory).

Don't Let an Obsolete Meter Create a Compliance Gap

NEW 1152

Obsolete Meter

Fully intrinsically safe – ATEX, UL, CSA, ULC, and LCIE (Europe/UK) certified

Compliant with ASTM D2624, IP 274, and ISO 6297

ISO-certified calibration and manufacturing (ISO/IEC 17025 laboratory | ISO/IEC 80079 facility)

Sealed design – No fluid ingress with new membrane switches and enclosed housing

Includes a CU Reference Box (\$698 value) for on-the-spot verification with qualifying trade-in

Serviceable, warrantied, and fully supported – 1-year warranty with genuine Emcee parts available
